FROM THE CMD'S DESK

AJAY SINGH
Chairman and Managing Director

DEAR READERS,

Welcome aboard SpiceJet!
This month marks a significant milestone in our journey. SpiceJet was born on May 23, 2005, out of a sense of passion and self-belief. As we turn eighteen this month, I still remember the sensation of watching our inaugural flight from New Delhi to Ahmedabad take off. It was a moment of such immense pride. The journey so far has been a memorable one with transformative experiences along the way. As we continue to grow, our sense of purpose and intent to serve the people and the nation will remain key driving forces for the airline.

Throughout, we have remained true to our core purpose of serving the people and providing our services when called upon. When the greatest crisis hit global aviation, the Coronavirus pandemic, we were hard at work. When most wouldn't even venture out of their homes, SpiceJet came forward to transport medicines, medical equipment, fruits, vegetables and much more to all corners of India and the world. It is a matter of great pride and satisfaction that we were able to render whatever help we could for our country and to our fellow citizens when they needed it the most.

As I reflect on what it is that keeps SpiceJet going – surviving, renewing and reinforcing itself – through the many upheavals that came our way, I believe it is our indomitable spirit and persistent passion that saw us through.

The Indian aviation industry is perhaps on the cusp of claiming its rightful place as an important global aviation hub. These are exciting times as new airports, seaports, seaplane services and aerodromes are added to the air network and regional connectivity continues to get a boost from government schemes like UDAN.

As we continue to work tirelessly to serve more passengers across geographies, we are grateful for the continued love and patronage you have shown us. We have clocked the highest occupancy or passenger load factor for a record eight successive years and we are grateful to each one of you for your continued patronage. In March 2023, we clocked the highest occupancy rate of 92.3%.

The country and your airline are firmly on the growth path and will continue to invest in improving connectivity options and better services all around. As we grow both in size and repute, the dawn of our days as a global aviation hub is finally upon us. To our incredible employees, valued passengers, dedicated stakeholders, and dear friends – I thank each and every one of you for your unwavering trust and support.

Jai Hind!

RIGHT PROFESSION FOR A GREAT SOCIETY: LET VALUE-BASED EDUCATION SYSTEM LEAD YOUR CHILD'S CAREER PLANS FOR PUBLIC WELFARE

If there is one thing that weighs heavily on the minds of students in the last few years of schooling, it is how to choose the right career path. It is the first stepping stone to achieving your goals and acquiring knowledge. In the process, one would experience the responsibility to lead them for the rest of their lives. In many Indian families, professional courses like engineering and medicine still top the list. However, building a career graph is not just about earning higher salaries or building an envious bank balance. There is much more to it than that, reminds Dr. Manimekalai Mohan, Founder, and Managing Trustee of SSVM Group of Institutions, Coimbatore.

In an inspiring interview, the experienced educationalist provides you with a checklist to help you choose the right profession.

Dr Manimekalai Mohan
Founder & Managing Trustee
SSVM Institutions,
Coimbatore, Tamil Nadu

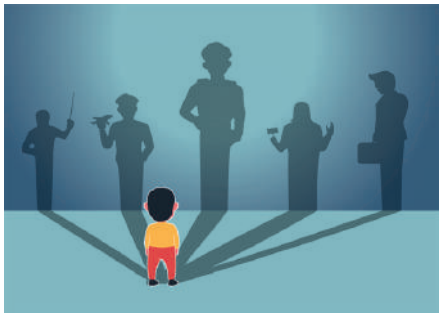

What are the prerequisites for selecting the right career path, and how should one narrow down the options?

One should ask value-based questions before picking a career path. For example, if you are discussing or coaxing your child to join a particular course, especially after Grade 10, their viewpoints can be analysed by asking the right questions.

- What is their motivation in life?
- Do their motivations meet their priorities in life?
- Are they finding meaning in what they are doing?
- Do they want to be part of the change and support society?

Interesting, but can teenagers of this generation be empathetic and understand these prerequisites?

Absolutely. This generation of youngsters is far more responsible, concerned about society, and aware of their duties. However, with awareness comes a sense of liability. I have seen many teenagers volunteering with various NGOs over weekends or vacations to safeguard the environment. They extend their help to people in need and collect money and other things for noble causes. By asking the right value-based question, we will be able to show a mirror of the plaguing problems faced by the underprivileged in society.

It is widely believed that excellent education means a solid financial structure. So how should one help students strike a balance between both?

Education brings recognition, professional success, and money. These are package deals, but money should not be the only goal while making academic progress. For instance, if a child wants to become a surgeon, the parents and teachers must provide all necessary assistance in that direction. However, the student must also remember that high-quality medical care is still scarce for many and should be willing to facilitate affordable or accessible health check-ups.

Can 'public welfare' be achieved only through certain professions?

Not true. We need all jobs, professions, and careers for society to progress. However, let us not forget the concept of dignity of labour. Plenty of employment plays a silent role in making our lives easier. This includes media, the banking sector, online deliveries, and service industries including hospitality, child welfare, and elderly care. Can we imagine our lives without their contribution? It is essential to recognize and value the role of each professional for harmony in society.

How about children with an inclination toward business?

Business establishments are our society's backbone and significant contributors to our economy. If children want to become entrepreneurs, encourage them. A successful business establishment means more employment, welfare, and phenomenal progress in our country. As I said, all jobs and professions are needed for every citizen's overall and remarkable well-being.

HIMACHAL PRADESH

As OTT series capture our imagination, here's a must-do travel list inspired by their locations. We start with *Aranyak*, a crime thriller, set in the stunning landscapes of Himachal Pradesh

The Netflix crime thriller *Aranyak*, starring Raveena Tandon in the lead, was shot in some of the most breathtaking locations of Himachal Pradesh. The show was filmed in the scenic valleys of Manali and Kasauli, where the snow-capped mountains, winding roads and icy rivers create a picturesque setting for trekking, skiing and paragliding. The dense pine forests set the perfect mood and tone for the atmospheric thriller, making it an important character in the show's storyline. *Aranyak* features stunning landscapes, grand mansions, cozy homes, and quaint cafés and bars that will make you want to visit the mountains to live the cinematic experience!

Image: netflix.com

If the stunning landscapes of the fictional Sironah town in *Aranyak* have you mesmerised by its beauty, then Manali and Kasauli are must-visit destinations.

WHAT'S MORE

Parts of the show were also shot in serene Kasauli, a hillstation near Shimla. The town's old-world charm comes to life as the camera pans the winding forest pathways, lending an air of disconnect from the real world.

WHAT TO SEE

Visit popular sites in and around Manali, like the Hadimba Temple, Vashisht Hot Springs and the bustling Mall Road. Walk around old Manali's wooden houses and inviting cafes.

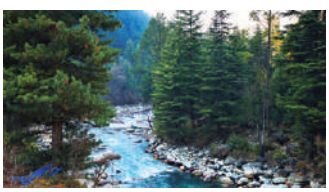

Image: thelazydog.in

Near Manali, make trips to Rohtang Pass, Parvati Valley, Solang Valley and Buddhist monasteries. Try hot-air balooning over the countryside.

Kasauli has numerous cultural and heritage landmarks, including Christ Church, Kasauli Distillery, Gilbert Trail and Kasauli Club. Take long walks, admire stunning Himalayan views and lose the track of time!

UTTAR PRADESH

A Suitable Boy **is a BBC series set in post-Partition India focussed on traditions, romance and modernity**

Image: netflix.com

Actors Tabu and Ishaan Khatter in a still from the series

BBC's *A Suitable Boy* deftly adapts Vikram Seth's novel, depicting India's tryst with Independence. The series offers a nostalgic glimpse into the region's unique and diverse cultural identity. The story begins in the fictional town of Brahmpur, situated along River Ganges. In the series, cities like Lucknow and Kanpur are brought to life in vivid shades. The filming of the drama took place entirely in Uttar Pradesh with some parts shot in Madhya Pradesh. The filming locations serve as a visual treat, beckoning the audience to experience the beauty and cultural heritage of the region.

WHAT TO SEE

Lucknow, the capital of Uttar Pradesh, is where the fictional town of Brahmpur is set. Enjoy scenes depicting the city's old Nawabi splendour, captured in royal mansions with elaborately decorated interiors. The characters, in vibrant sarees and *salwar-kurtas*, are set in sepia-tinted frames.

Panning lush green scenery and stately homes with *ghazals* as backdrop music, *A Suitable Boy* recreates the India of the 1950s

For a scene, the production crew shot in Kanpur at Shewan Tannery, one of several operating in the city. A few scenes were also filmed in the river-side town of Maheshwar in Madhya Pradesh. Maheshwar's grand fort and temple complex feature prominently in the show.

WHAT'S MORE

The iconic Bara Imambara in Lucknow features prominently in many of the scenes. Other landmarks in the city like King George Medical College and La Martinière College play their part as the fictional Brahmpur University. The Lebua Hotel is a shop front, while the towering Charbagh Railway Station becomes the Bhrampur railway station.

AWARDED TIMES ICON OF THE YEAR 2017 BY TIMES OF INDIA

AWARDED "THE BEST INTERNATIONAL VASTU GURU" BY BOLLYWOOD DIVA KANGANA RANAUT IN THAILAND

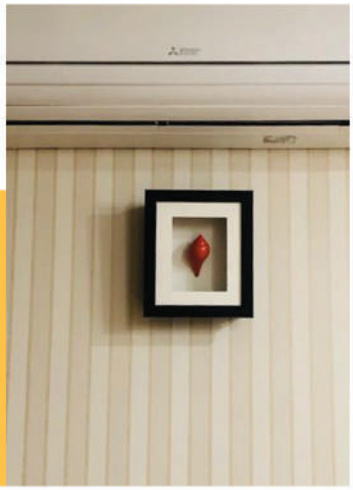

Vimal Jhajharia along with his son Vikas Jhajharia

Vastu is protection against unforeseen circumstances. It is used to increase personal energy in health, wealth and relationships of a person

In an office, it is used in the north to increase money inflow. In a house, it is used in the east direction for better health & relationship among family members.

HERE IS AN EXTRACT OF AN INTERVIEW WITH THEM AND THEIR CLIENT TESTIMONIALS:

What exactly is your famous Vastu Shankha Yantra and how cost effective is it?

Based on the principles of Vastu, the Vastu Shankha Yantra is an original conch shell used to potentially rectify any kind of land, Vastu or energy defects without making any modifications. It can potentially save a lot of time and money as it is used to create positive energy in places having major Vastu defects without changing the looks and beauty of the place.

Does the Vastu Shankha Yantra really work for prosperity in factories and industries?

Yes, we have a big list of successful clients including businessmen, entrepreneurs, doctors, scientists, professionals, architects, interior designers, etc giving testimonials on our wesite.

Endorsing the Vastu Shanka Yantra is industrialist Sushil from New Delhi. He says, "My son and I are running a factory but were not getting the desired results. We came to know about Vimalji and Vikasji through one of their articles in inflight magazines. Upon showing them the factory, we immediately realised our north was blocked and all the heavy machinery was placed along the north wall. We then got the Vastu Shankha yantras placed at certain places on Jhajhariaji's recommendation. Now, every new factory of ours is made under their able guidance and we also recomend them to all our friends and relatives."

Can Vastu Shankha Yantra also help in selling a property?

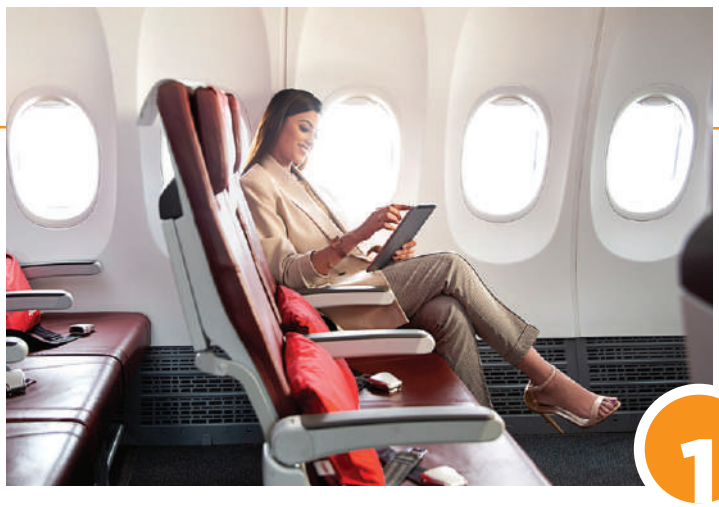

Yes, we do a lot of Vastu correction for builders and developers and also individuals whose properties have been stuck for a long time and which are not getting sold because of some or the other Vastu defect. Vouching for success is Satish from Bangalore who was trying to sell his four acres property for two years. When we saw the property, we saw it had multiple corners & it was not a proper rectangle or a square. We then positively charged this property by placing our Vastu Shankha Yantras in various corners to help correct the magnetic field of the property and hence creating positive energy in the atmosphere.

to tip the scale towards conscious and sustainable styles, one stitch at a time.

GETTING SERIOUS

We are witnessing a paradigm shift in sustainable fashion trends globally that is focussing on decreasing the fashion industry's ecological impression. This embraces using eco-friendly fabrics, employing sustainable manufacturing processes, as well as fair labour practices, consuming less water, saving energy and reducing waste. "We are trying to move away from overproduction and overconsumption, and this will have a positive impact on the future," says Rahul Mishra, an Indian fashion designer known for his rediscovery of traditional fabrics and embroideries.

"Slow fashion is not just about buying eco-friendly clothes but incorporating the idea of less is more in your sartorial lifestyle. As an industry, it means launching fewer but more durable collections," says Kanupriya Mundhra, co-founder of Aastey, a conscious athleisure wear brand. Explains Rashmi Shukla, business head, Jaypore, an accessory brand working with indigenous artisanal crafts, "We source from local craftsmen, use natural fibres like cotton and silk, adopt responsible dyeing techniques and promote circularity through upcycling and recycling. Our made-to-order model helps us avoid excess inventory build-up and minimise waste."

CONSCIOUS CONSUMER

The aim of slow fashion is explicitly directed toward mindful consumption and production. "As a brand, we educate customers to keep a minimalistic wardrobe and invest in garments that are heirloom pieces or those they would like to pass on to future generations," says Gunjal Jindal Poddar, founder Amala Earth, a platform for sustainable products.

Recent research indicates that Indian consumers are altering their buying decisions based on social responsibility factors. A 2022 survey says 52 per cent of consumers in urban India are expected to increase

Slow fashion says consumers have to choose smartly and recycle. The focus should be on organic, natural fibre garments manufactured through fair practices

Images: Jaypore

Earlier this year, Prime Minister Narendra Modi donned a blue jacket to the Parliament. Presented to the PM by the Indian Oil Corporation during India Energy Week, the jacket was crafted out of recycled waste plastic bottles. Suffice to say, the PM and the jacket made a green statement!

Green Tips

- Aim for at least 30 wears when you buy something new.
- Be more informed. Do your homework if you're serious about the shift to sustainability.
- Alter your attitude towards shopping. Rent for one-time-wear on special occasions.
- Opt for vintage pieces. They are not only known for their quality but are also sustainable.
- Shop for inter-seasonal garments that'll work throughout the year.
- Take stock intermittently and donate what hasn't seen the light of the day.
- Read wash care labels. Take care of your clothes to keep them in good condition.
- A rip in a garment doesn't mean discarding it. Repair and reuse.

their spending on sustainable brands in the next three years. The survey also says that over 60 per cent of Indian consumers are willing to pay a premium for sustainable products. "There is hope of building a better future by shifting and shaping perceptions of consumption and fast fashion," says Mundhra. Agrees experimentative fashion designer Amit Aggarwal, "Even for brands, it will not be easy to produce smart but less. So the challenges are going to be different and probably larger, but we have to adapt."

CIRCULARITY

Also, there's the interesting concept of circularity in the fashion industry, which is opting for fashion crafted out of safe, renewed and recyclable materials. "Circularity is essentially taking things out of a linear production process and moving it into a closed loop system. In an ideal scenario, the raw material would come from some kind of waste and then be converted into another (related or not) product, and this product's end-of-life would either be it ending up as raw material for something else or being completely decomposable, ideally in a home compost and not industrially," explains Prerna Singh Butalia, founder, Pretty As You Please, an online magazine on sustainability in fashion.

In India, hand-me-downs is often a family tradition, so circularity in apparel and accessories is an easily adaptable sartorial shift. "Each of us can extend the life of a garment by changing its form or by sharing it with another so that it stays in circulation longer," says Meghna Khanna, style therapist and co-founder of Preloved Co, an enterprise working on recycling of clothes.

"Choose natural fibre-based clothing that is mindfully cultivated. This ensures that clothes, at the end of their life, can go back into the soil and not add to the landfills," explains Shruti Rawal, founder of Ewoke, a conscious clothing brand.

The fashion industry is signing up for sustainability, slow fashion and circularity in a big way and so are consumers. This symbiotic relationship will make the planet a better place to live in.

The Sundarbans mangrove forest, one of the largest such in the world, is a rich biodiversity hub. The area is known for its wide range of fauna, including hundreds of bird species, the Bengal tiger and rare species as the estuarine crocodile and a variety of snakes.

Assam attracts nature lovers and tourists throughout the year to its many national parks abounding in rhinoceros, elephants, deer and tigers. The one-horned rhinoceroses can be spotted in the forests here, especially at Kaziranga.

Sacred groves

Celebrating the International Day for Biological Diversity this month we reaffirm our commitment to promote the diverse flora and fauna in Indian forests. Encompassing one of the world's most varied ecosystems, India's dense mangroves, lush pines, deodar trees, green hills, and sea-side foliage make for a breathtaking landscape.

Every year on May 22, we celebrate the International Day for Biological Diversity to reaffirm our pledge to protect the environment. To note, four out of the 36 biodiversity hotspots in the world are in India, including the Himalayas, the Western Ghats, the Indo-Burma region and the Sundaland. And as India celebrates a rise in its forest cover, we can rejoice a little more. According to the India State of Forest Report (ISFR) 2021, India's forest area has grown by 2,261 sq km. So, here is a glimpse of some of the green carpets that cover India!

Out of the total 47,000 plant species found in India, as many as 3,295 have been recorded in Himachal Pradesh. Such diverse ecosystem and distinct floral biodiversity makes the state a paradise for nature lovers.

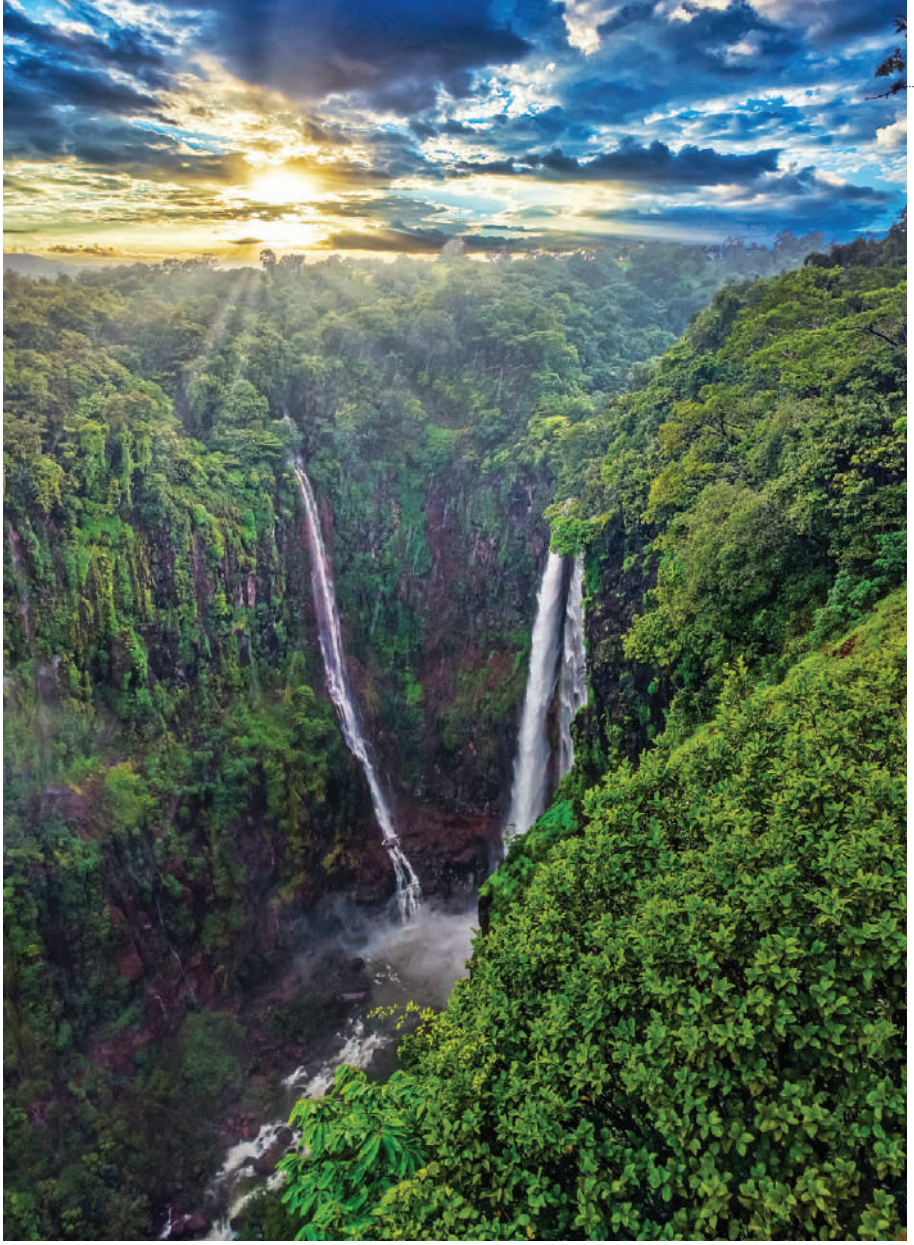

Did you know that the word Jharkhand means an area covered with forests! Home to several dense jungles like Betla National Park, Palamu, Hazaribagh, Dalma and Topchanchi sanctuaries, and Udhwa Lake Bird Sanctuary among others, the state is perfect for a green vacation!

Meghalaya, situated in the Northeastern part of India, is known for its rich biodiversity and dense forests. The state receives heavy rainfall, resulting in lush evergreen forests and numerous waterfalls. The forests are home to a variety of flora and fauna, including rare and endangered species such as the clouded leopard and the Asian elephant.

Maharashtra's Satara district is home to some of the state's most renowned forested landscapes, including the Kaas Plateau, famous for its stunning wild flower meadows and the Thoseghar waterfalls surrounded by dense forest. The state of Maharashtra is ranked fifth in terms of the largest forest cover in India, with Madhya Pradesh, Arunachal Pradesh, Chhattisgarh and Odisha leading the way. The state's abundant forests not only enhance its natural beauty but also provide vital habitat for its rich biodiversity.

Madhya Pradesh is one of the greenest states in India with the largest area under forest cover. It boasts nearly 10 national parks and tiger reserves. So rich is the state's green cover that out of the nine vulture species in India, seven are found here. Here, a tiger is spotted by tourists at Bandhavgarh National Park.

NOW, AI CHATBOT AS A TUTOR?

OpenAI's viral chatbot ChatGPT has been garnering headlines since its launch in November last year. Now, a student has claimed the chatbot helped him to complete 12 weeks of study in just a few hours, resulting in a score of 94 per cent in his exam.

A user on a popular social media platform has said he turned to ChatGPT for assistance after falling ill and missing several classes. He explained that in just 72 hours of studying with the AI tutor, he was able to significantly improve his knowledge and understanding of the material!

THE DRONES HAVE ARRIVED

The day is not far when your e-commerce parcel may be dropped off at your door-step by a drone! Or maybe an oven-fresh pizza! Experts say e-commerce players in India may soon rent out drones, so you can use them the way you book a cab on an app, and test viable use-cases for last-mile delivery. In Bengaluru, a tech firm is eyeing to soon launch drone-based deliveries of critical medical supplies and even organs! A few months ago, Dehradun had seen a major player in the pharmaceutical industry launch a similar drone-based service to deliver medicines to remote areas.

ROBO-DOG IS BACK

The New York Police Department's robotic dog, which earlier was in news over concerns of excessive surveillance, has been deployed once again to help in public safety efforts. With its ability to navigate tricky terrains, climb stairs and assist in potentially dangerous situations, the robot seems to be a valuable asset. The police force has announced that the robot will be deployed only under specific circumstances, such as hostage situations and hazardous material incidents.

The virtual reality of fashion

The metaverse is everywhere! With Facebook's efforts around Meta and global luxury brands dabbling in NFTs, the metaverse needs no introduction in the world of fashion. In India too, a few major clothing retail brands have stepped inside the parallel universe and designers are experimenting as well. At TechSparks 2023, Mumbai edition, Lokesh Rao and Sunil Arora, founders of Trace Network Labs, launched Pariz Metaverse. It's being labelled as "the world's first fully functional and next-gen fashion and lifestyle metaverse."

NEW VIRTUAL WORLD NOW OPEN TO TEENS

Meta has announced that its social VR platform, Horizon Worlds, will be opened up to teenagers aged 13 to 17 in the United States, Canada and the European Union. Previously, the platform was only available to adults. Horizon Worlds allows users to create and explore virtual worlds with friends, play games and attend events. Meta has said that the platform includes safety features such as moderation tools and privacy controls to ensure that young users are protected. This move is a part of Meta's efforts to expand its user base and make social VR more accessible to a wider audience.

18 YEARS OF FLYING with our heart and soul

For 18 glorious years, SpiceJet, your favourite domestic airline, has been spreading smiles and painting the sky red! Our journey has been marked with some terrific achievements and rewards that we'd like to share with you since you have been the most important part of our success story

On May 23, 2005, an aircraft with a blazing red tail took to the Indian skies, marking the first flight of a new airline that would revolutionise the way Indians flew in the years to come! Bubbling with young energy, with high spirits and a warm and caring heart, it vowed to make dreams come true, promising to make every Indian fly with dignity and comfort! It literally promised the sky!

Today, 18 years later, the airline is living up to that commitment every day, each time, and to every passenger. No wonder SpiceJet is India's favourite domestic airline. And 18 has never looked so red, hot and spicy!

BIG AND SAFE

Soon after its launch, SpiceJet soared to the sky and within three years was the one of the largest airlines in India, quickly reaching the top five in India. From adding to our fleet strength regularly with the latest world-class aircraft to adhering to the industry-best safety and sustainable practices, we have always led the way. In 2017, we inked a mega deal with Boeing for purchase of up to 205 jets, one of the largest orders in the American company's history. And in 2019, we received the IATA Operational Safety Audit (IOSA) certification, the highest benchmark for global safety management in airlines. Our next generation fleet delivers enhanced fuel efficiency, reduced emissions and offers more passenger comfort.

Since April 2015, for a record eight years, SpiceJet has flown with the highest passenger load factor.

CUSTOMER FIRST

All through our journey, you have been at the heart of all our decisions and we constantly improve and innovate to offer you the best experience in the sky. From being the pioneer of serving hot meals on-board to offering the lowest fares and launching SpiceMax seats to give more legroom and more comfort to premier economy flyers, your comfort and convenience have been our primary goal.

We reduced your airport hassle by introducing India's first Smart Mobile Check-in. To keep you entertained in the air, in 2020, we launched SpiceScreen, a complimentary in-flight entertainment system, through which you can also book cabs for airport transfer even while you are on flight! And then came Sky Mall, making SpiceJet the first-ever Indian airline to offer an online shopping experience in-flight!

Since 2005, we have been connecting families from far-flung corners of India by providing air connectivity to the remotest parts of the country even by water! SpiceJet was the first and only Indian airline to explore air connectivity through a seaplane!

In another landmark move, in 2018, we launched dedicated air cargo services on domestic and

international routes and inducted our first freighter aircraft, becoming the first domestic airline to offer end-to-end cargo services.

GIVING BACK

At SpiceJet, we firmly believe in giving back to society - from participating in flood relief operations to uniting Army *jawans* with their sisters on *raksha bandhan* and from funding the electrification of a village on Diwali to taking cancer patients and the underprivileged on a joy-flight. Under its CSR programme, Sapnon ki Udaan, SpiceJet has brought smiles to many faces – in 2019 it celebrated Children's Day by flying cancer patients and the underprivileged on a 'joy-flight' and in 2021, came to aid of 15-year-old tea seller from Mumbai Subhan Imtiyaz to realise his dream of becoming a pilot with sponsorship. In 2015, SpiceJet launched the initiative "High on Yoga@35000 feet", a unique partnership with Isha Foundation to spread yoga consciousness on the occasion of Yoga Day.

FLYING FOR INDIA

While we are global in our technology, our heart beats for India. Our patriotism shines in many ways - from helping Indians reach their hometown free of cost to vote during polls and supporting Indian farmers by transporting record quantities of fresh produce under the government's 'Krishi Udan' and 'Marine Krishi Udaan' initiatives to connecting far-flung areas of the country under the government's UDAN scheme to spreading joy,

Industry Firsts

- First airline to have flown a bio-fuel jet within India.
- First airline to have introduced an electric tarmac coach.
- First private airline to have participated in the government's UDAN scheme for enhanced regional connectivity.
- First airline to offer mid-air cab facility for passengers.
- First Indian budget airline to offer wireless on-board entertainment.

SpiceJet has been contributing to making India better. SpiceJet changed the paradigm of connectivity in the country by becoming India's largest regional player, operating major direct flights under the government's UDAN or Regional Connectivity Scheme.

THE COVID FIGHT

Without any consideration for personal safety, we came out strongly to support the Indian government's fight against the Covid-19 pandemic. SpiceJet repatriated a large number of Indian and foreign nationals during the pandemic, bringing home over half-a-million stranded Indian citizens, including critical patients. It flew more than a thousand repatriation flights from across the world, including those to fly back over 1,000 Indian students stuck in Kyrgyzstan in coordination with actor Sonu Sood. It flew thousands of cargo flights to transport tonnes of vital medical supplies. It played a pivotal role in vaccine distribution by transporting four million doses on the first day of the vaccine programme, becoming India's number one carrier for vaccine transportation. Our efforts were appreciated by eminent people, including doctors, patients and family members of those helped.

AWARDS GALORE

In our 18 years of flying, we have been praised and awarded across the world - the 2021 Airline Passenger Experience Association (APEX) Award in the 'Newcomer of the Year category' and in March 2023, the Bronze Stevie award in the Customer Service Department of the Year – Airlines Distribution & Transportation category. In 2021, SpiceJet became the first Indian airline and the second budget airline in the world to be awarded the highest rating for flight health and safety, after it was awarded the Diamond status by The Airline Passenger Experience Association (APEX) Health Safety for ensuring the highest standards of cleanliness and sanitisation amid the pandemic.

At SpiceJet, we bring alive the spirit of flying – joyful, exciting and spicy. We are constantly adding new destinations, expanding our fleet and enhancing our services to reach out to millions of flyers across the world. For 18 years we have been powering the power to fly and a new era of soaring even higher has only begun!

NEWS

SpiceJet completes SpiceXpress hive off

In a bid to boost the growth of its cargo business and provide a more streamlined and efficient service to its customers, SpiceJet Ltd. has completed the hive off of its cargo and logistics division 'SpiceXpress' into a separate entity, SpiceXpress and Logistics Private Limited.

The hive off is effective April 1, 2023 and paves the way for SpiceXpress to raise funds independently. The hive off would strengthen SpiceJet's balance sheet, wipe out a substantial portion of the Company's negative net worth and unlock significant value for the Company and its shareholders.

The consideration for the slump sale shall be discharged by SpiceXpress by issuance of securities in the combination of equity shares and compulsorily convertible debentures to SpiceJet for an aggregate amount of Rs. 2,555.77 Crore which will also strengthen the balance sheet of SpiceJet.

Ajay Singh, Chairman & Managing Director, SpiceJet, said, "The separation of our cargo and logistics arm is a stepping stone in our growth story which shall unfold in the times to come."

"SpiceXpress will provide greater and differentiated focus to cargo and logistics business and will allow the possibility of raising capital for the business to accelerate its growth. The decision to hive off SpiceXpress is in sync with our long term business plan and will unlock significant valuation of the logistic business. Both SpiceJet and SpiceXpress have great potential and will complement each other well."

"The hive off will not only enable SpiceXpress to raise cash independently, it will significantly reduce SpiceJet's negative net worth. Having restructured over $100 million, outstanding dues to Carlyle Aviation Partner last month, the hive off will further strengthen and deleverage our balance sheet."

During the pandemic, SpiceXpress played a critical role in ensuring that vital trade routes between India and other countries remained intact. With India's transportation system coming to a virtual halt, SpiceXpress freighters and cargo planes took to the skies every single day to ferry a record supplies of relief material, medicines and medical equipment to and from wherever was required.

- **SpiceXpress has reported a Net Profit of INR 51.4 Crore in the first three quarters of FY 2023**
- **Hive off results in a one-time gain of INR 2,555.77 Crore for SpiceJet substantially reducing the Company's negative net worth**
- **To unlock significant value for SpiceJet and its shareholders**

My Town

In our series, in which we travel to various Indian cities with a SpiceJet family member, this month, Harsha Sattigeri, Senior Cabin Crew (Ahmedabad), takes us around her city, Belagavi

MS. HARSHA SATTIGERI
SENIOR CABIN CREW, BELAGAVI

Where are you originally from?

I am from Belagavi, which is considered one of the oldest, strongest, and culturally rich places nesled in the Western Ghats.

What is the best thing that you like about the city?

I love to explore my adventurous side, and Belagavi has everything I desire. I enjoy trekking and camping in Jamboti Hills during the monsoon season. I love the picturesque surroundings and watching white water gushing down the rocks.

How does the lifestyle in Belagavi differ from that of other big cities?

Belagavi's blend of cultures and stunning geography make it truly enchanting. The rocky terrain is perfect for nature and adventure enthusiasts, while numerous sacred shrines provide spiritual solace.

What is the night scene here like?

I revel in night outs with my friends and family. Evening walk in Kemple Park near Gokak Falls is a perfect way to rejuvenate oneself. Belagavi Fort is also a great spot to unwind with family.

Are you a foodie? Which is your favourite eating place in Belagavi?

Food is my passion, and I have an unbreakable bond with it. When I crave loaded cheese fries, I head to "UFO Fries and Corn". "Stark Café" is another favourite for their mouthwatering pizza and garlic bread. But Tinisu Katte is a place every foodie longs for.

How did you discover the eating place?

My cravings, along with my like-minded friends, were the reason for this incredible discovery. I have been there countless times now.

What are the best places to hang out in Belagavi?

Belagavi's magnificent waterfalls are the perfect spot to hang out with friends and family, particularly during monsoon season. The city is also renowned for its temples and forts, where one can spend an entire day here. Don't miss Kittor Fort, the palace house with its remarkable archaeological museum, or Hidkal Dam for its breathtaking sunset.

What attractions in Belagavi would you recommend to a tourist?

Gokak Falls, without a doubt! It resembles Niagara Falls and sources water from Ghataprabha River over a horseshoe-shaped standstone cliff. Kamala Basadi is also worth a visit, depicting a lotus with 72 petals and a famous Neminatha idol in black stone, surrounded by well-carved pillars.

Apart from Belagavi what are the other places you would recommend outside but near to your city?

I highly recommend visiting Tillari waterfalls! The fog, lush green trees, and fresh scent of grass are worth the trip. History enthusiasts should not miss the Rajhansgad Yellur Fort, which offers a panoramic views that will leave an indelible mark on your memory.

Why do you like the place so much?

Tinasu Katta is the perfect for all kinds of cravings. The small shops here offer a wide range of options from juices to coffee, ice cream to Gadag bhaji, and various cuisines such as Rajasthani, Punjabi and South Indian.

What are the people here like?

Belagavi is a city that blends the rich cultural heritage of Kannada, Marathi and Goan cultures. People here are open-hearted, warm and friendly but also take pride in their customs and traditions.

What are the other places where you have stayed in India? How is Belagavi compared to them?

I have traveled all around India and noticed that while most of the country reels under terrible heat, Belagavi enjoys a pleasant climate with monsoons. Life in this city is not as fast-paced as compared to other cities in India, but one can still be content with life in general without worldly pleasures in abundance.

PLEASE DESCRIBE YOUR FAVOURITE DISH IN BELGAVI

My favourite dish is Mandige. It's a wafer thin roomali roti folded like a dosa, filled with sugar, ghee and spices. It's a wheat-based sweet and a must-have in all auspicious occasions in Maharashtra and Karnataka, also considered to be an obligatory offering to the Gods during festivals. I love to eat mandige with warm milk and sometimes with hot ghee. Just thinking about it makes my mouth water.
